Poppins

Geometric sans serif typefaces have been a popular design tool ever since these actors took to the world's stage. Poppins is one of the new comers to this long tradition. With support for the Devanagari and Latin writing systems, it is an internationalist take on the genre.

The background features a complex, symmetrical pattern of light blue lines and small circles, resembling a circuit board or a stylized network. The lines are of varying lengths and angles, creating a sense of movement and connectivity. The circles are small and evenly spaced along the lines, acting as nodes or connection points. The overall effect is a high-tech, digital aesthetic.

Thank you
